

Study at Lulea university of technology

Lou Gaudard / Mathéo Schell / Lucas Dupraz

The University

- It is a very good university which offers very varied courses (materials, architecture, geology, management, etc.)
- It is a very large university campus with more than 17,000 students
- It is located only 100 km from the Arctic Circle.
- There is northern life with the midnight sun in summer and cold temperatures in winter

Courses and exam

- Classes are made up of Swedish students and exchange students depending on who chose the courses
- Courses are either in Swedish or English (mention when choosing courses)
- There are not many class hours during the week
- It's a lot of independent work (we come to class after studying the course at home)
- Depending on the course there may be a lot of group work (especially for non-scientific subjects) don't worry it's easy to find a group and it's much more fun ;)
- There are very few or no TD sessions
- Regarding assessments, it depends on the courses (ask about the program) but it can only be group work or quizzes or written exams (they give a lot of time to complete them)

Life

- The university puts us in touch with an agency for accommodation (3 types: individual, shared accommodation for 4 or 2)
- They are 15 minutes walk from the university and 15 minutes by bus from the city center (around €300/400 per month)
- All Erasmus students stay there (easy to make friends)
- Life in Sweden is a little more expensive than in France (add around €2 to everything)
- It's not the euro in Sweden but Swedish crowns (do not take cash, the card is everywhere)
- There is a gym and many sports at the school (anyone can sign up)

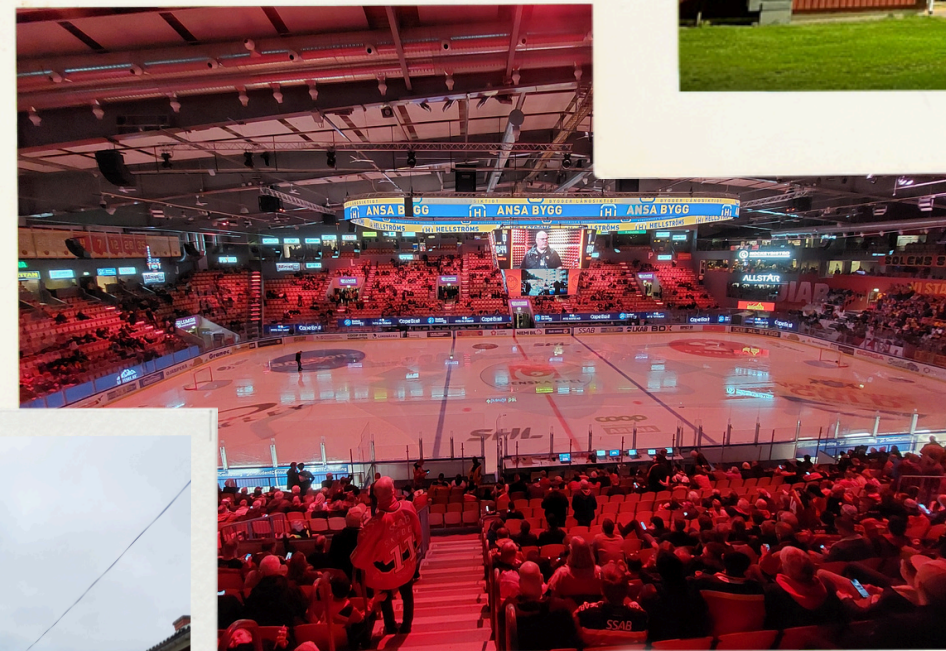

budget idea I spend everything
included with my trips

5700 €

my scholarship was (the prices
change depending on the years)

2800 €

2900 €

Welcoming Erasmus students

If you go to Sweden, the ESN group will integrate you. You will be with all the other Erasmus and activities will be organized as well as games, dinners...

in addition ESN offers to pick you up at the airport and take you to your residence.

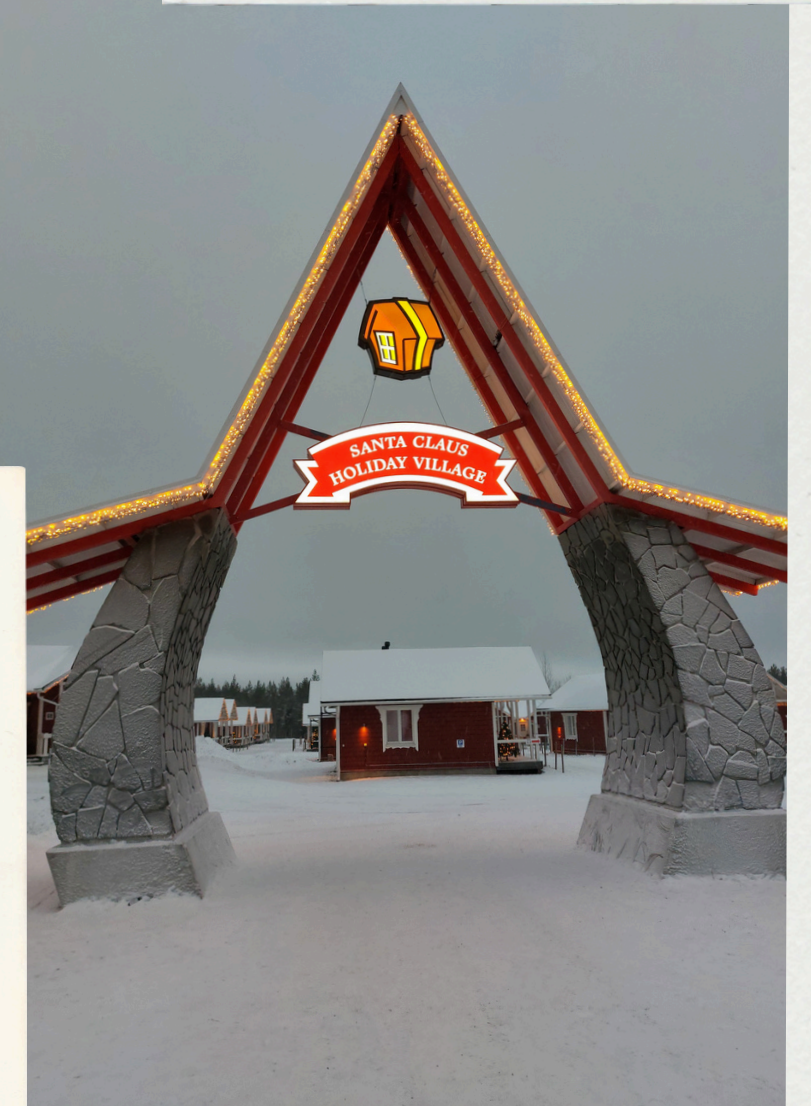

And finally during the semester ESN offers two organized trips with activities, one to Lofoten in Norway and one to Lapland in Finland.

Lofoten in Norway

Lapland in Finland

Tips

- You arrive in mid-August and leave just before Christmas
- Temperatures during your stay will vary between approximately 15° and -20° (in winter we will skate on the sea)
- Dress well and it will be bearable It will get darker and darker up to a maximum of 2 hours of daylight at the end
- It's progressive so it's okay but we advise being well surrounded and seeing friends
- Don't be afraid to talk to others, they are in the same situation as you
- All Swedes speak English so it is not difficult to make yourself understood in the country

Go discover life in
the north!
